

Top 5 revision strategies

Topic on a page

- Pick a subject and then choose a **specific topic**
- On a blank piece of paper create a mindmap of everything you can remember **without** using notes or other resources
- Then look through your notes/ a textbook/revision guide etc.
- **Using a different colour**, add any missing information to the mindmap
- Write some questions on the back to come back to

Flash cards

- Pick a subject and then choose a **specific topic**
- On one side of the card, write a detailed question
- On the back of the same card, write the answer - this should be in bullet point form with key words
- **Once the set is complete, test yourself!**
- When you answer them separate them into piles: ones you know, ones you struggled on, and ones you don't know
- **Practice regularly!**

Exam questions

- Pick a subject - you may want to complete a whole paper OR focus on some specific topics
- Past paper can be found in pupils shared/Foldr app or on a variety of websites
- **Time yourself** completing the paper/questions - try not to spend too long on short questions
- Mark the paper/questions at the end in a **different colour** pen - add missed info
- **Complete other revision activities for topics you struggled with**

Transforming notes

- Pick a subject and then choose a **specific topic**
- **Summarising** notes helps to process the information
- Pick a method of transforming notes that **suits you** (e.g. making the text into pictures, diagrams, or reducing to 5 key points)
- Be **organised** and have a good **structure**
- Test out different methods!
- Use symbols and abbreviations
- Do not copy things word for word

Websites /apps

- Pick a subject and then choose a **specific topic**
- Some good websites to use include: Seneca, BBC Bitesize, Cognitio, Physics and Maths Tutor, YouTube (make sure videos are relate to your exam board and/or recommended by class teachers)
- Subjects may recommended other websites - see pupils shared/Foldr app for a list
- Make sure you **do some active revision alongside** (e.g. watch a video and make flashcards)
